MEMORANDUM FOR THE RECORD

SUBJECT: Request for Space; House Appropriations
Committee, Surveys and Investigations Staff

In a phone conversation I had today with William Vandergrift, Chief of House Appropriations Committee, Surveys and Investigations Staff (SNI), he outlined the following reasons behind his request for space at CIA:

- SNI needs a vaulted space that could house 4-6 people. The present space in CIA Headquarters is inadequate.
- Secure space is needed to store sensitive documents, some of which are now at NSA and DOD as well as CIA.
- The space would be used as a base for activities of the SNI Staff that are focused on other agencies in the Intelligence Community as well as CIA, not only the latter.
- The space need not be in Headquarters Building.
